

EARLY TREATMENT. LASTING BENEFITS.

Orthodontic Care

- Helps protect front teeth from injury
- Guides healthy jaw growth
- Makes the most of natural growth
- May help avoid tooth extractions later

7 REASONS TO SCHEDULE AT AGE 7!

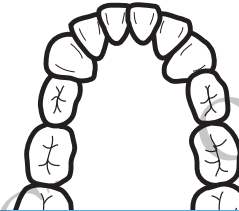

UNDERBITE

Lower front teeth protrude

DEEP BITE

Upper front teeth cover lower front teeth too much

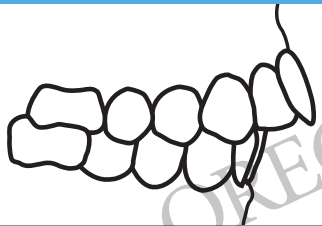

NARROW ARCHES

Upper and/or lower arches too narrow

EXCESS SPACING

There is excess space between teeth

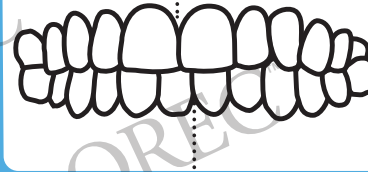

OVERJET

Upper front teeth protrude

CROWDING

Upper and/or lower teeth are crowded

MID-LINE MISALIGNMENT

Mid-lines of upper and lower arches don't line up

Early treatment can begin before all permanent teeth come in. If you notice any of these concerns, schedule an Orthodontic Evaluation.
